

JUNMING LIU

✉ pppplongke@gmail.com · 🎓 Google Scholar · 🌐 GitHub · 🌐 Personal Website ·

EDUCATION

The University of Melbourne, Melbourne, Australia

July 2027 – Present

Ph.D. in Engineering and IT

- Research Interests: Generative Intelligence, Multimodal Reasoning, Graph Theory

Tongji University, Shanghai, China

Sept. 2023 – Mar. 2026

M.E. in Computer Science and Technology

- GPA: 90.0/100

Dalian Maritime University, Dalian, China

Sept. 2019 – June 2023

B.E. in Intelligence Science and Technology

- GPA: 84.0/100

HONORS AND AWARDS

- **National College Mathematics Competition, National First Prize (1%)** *Dec. 2022*
Chinese Mathematical Society
- **Excellent Student Scholarship (10%)** *Sept. 2021, 2022*
Dalian Maritime University
- **Leadership and Communication Scholarship** *Sept. 2020*
Dalian Maritime University

RESEARCH EXPERIENCE

- **Reasoning in Multimodal Large Language Models** **Shanghai AI Laboratory**
Advisor: Dr. Ding Wang *Jan. 2025 – Present*
 - **Motivation:** Explore efficient and interpretable reasoning methods for MLLMs.
 - **Methods:** Developed an annotation-free multimodal knowledge graph module to enhance reasoning, designed a long-context prompt comprehension framework to guide outputs and align responses with input semantics, studied partial alignment of different modalities to preserve shared and modality-specific information, and built an agent-memory mechanism for multi-turn interaction.
 - **Results:** Achieved improved performance and robustness across several multimodal benchmarks, with publications in top-tier conferences and ongoing submissions under review.
- **Vision-Language Models for Medical Imaging** **Tongji University**
Advisor: Prof. Guosun Zeng *Sept. 2023 – Mar. 2026*
 - **Motivation:** Brain medical images contain complex structures that are difficult to interpret reliably, motivating the use of VLMs to enable structured and interpretable reasoning.
 - **Methods:** Used DDPM with ControlNet to perform high-fidelity reconstruction that preserves anatomical consistency across modalities, fine-tuned VLMs for brain abnormality detection and segmentation with traceable and interpretable reasoning, and incorporated privacy-preserving, distributed techniques for efficient lightweight collaboration of large models across heterogeneous hospitals.
 - **Results:** Achieved improved modality-aligned reconstruction and enhanced brain tumor detection and segmentation on BraTS, etc., demonstrating strong robustness even under Non-IID data distributions.
- **Text Sentiment Analysis Based on BERT Model** **Dalian Maritime University**
Advisor: Prof. Yijia Zhang *Sept. 2021 – May. 2022*
 - **Motivation:** Investigate public opinion tendencies on social media during the COVID-19 pandemic.
 - **Methods:** Enhanced BERT by integrating LDA topic modeling and fine-tuned the combined model for text sentiment analysis.
 - **Results:** Achieved 95% accuracy in analyzing public sentiment on social media posts and submitted a patent titled “Text Review Sentiment Classification Method Based on Topic-Fused BERT and Medium”.

INTERNSHIP EXPERIENCE

- **Shanghai AI Laboratory** *Jan. 2025 – Present*
 - Conducted research on AI agents.
- **Beijing Jinxixin Network Technology Co., Ltd.** *Oct. 2024 – Dec. 2024*
 - Constructed and trained vertical domain large models for maritime law scenarios.
- **Shanghai NIO Automobile Co., Ltd.** *June. 2023 – Aug. 2023*
 - Controlled steering systems using multimodal sensing for rollover prevention in tire blowout scenarios.

SKILLS

- Language: Chinese (native), English (IELTS: 7.0), Japanese, Germany
- Programming: C, C++, Python, Java, Go, SQL, Rust, MPI, NCCL, DeepSpeed, DDP, FSDP

CAMPUS EXPERIENCE

- Member of the Student Union, School of Electronics and Information Engineering, Tongji University
Sept. 2023 – June. 2024
- Member of the Art Troupe, School of Information Science and Technology, Dalian Maritime University
Sept. 2019 – June. 2022
